

eCommerce pages — keyword map

imgglobalinfotech.com · page-wise primary + secondary keywords · no page deleted

Rule — Har page ka **primary keyword** **UNIQUE** hai, isliye koi page delete kiye bina bhi aapas mein cannibalize nahi karega. Verticals (jewellery, furniture...) aur location pages apne unique modifier (product / city) se distinct rehti hain. **"Avoid"** column wo words batati hai jo us page pe use **NAHI** karne — taaki overlap na aaye.

■ App intent

■ Website / store intent

■ AI services

■ Local intent

Pillars

App

Website

Page	Primary keyword	Secondary keywords	Avoid
ecommerce-development	ecommerce app development company	ecommerce mobile app development · ecommerce application development company · ecommerce app development services · online shopping app development	"website", "web design"
ecommerce-website-development-company	ecommerce website development company	ecommerce website design and development · custom ecommerce website development · ecommerce development company · ecommerce web development services	"app", "mobile app"

Note: website page hi broad "ecommerce development company" term ka pillar hai. App page sirf app/mobile term own karta hai. Dono ko cross-link karo.

Business model

Website / platform

Page	Primary keyword	Secondary keywords	Avoid
b2b-ecommerce-development	b2b ecommerce development company	b2b ecommerce platform development · b2b ecommerce website development · b2b ecommerce development services · b2b ecommerce solutions	"b2c", "d2c"
b2c-ecommerce-development	b2c ecommerce development company	b2c ecommerce website development · b2c ecommerce platform development · business to consumer ecommerce development · b2c ecommerce development services	"d2c", "direct to consumer"
d2c-ecommerce-development	d2c ecommerce development company	direct-to-consumer ecommerce development · d2c ecommerce platform development · d2c brand ecommerce website · d2c ecommerce software	"b2c", "business to consumer"

Page	Primary keyword	Secondary keywords	Avoid
market-place-ecommerce-development	ecommerce marketplace development company	multi-vendor marketplace development · multi vendor ecommerce development · online marketplace development services · c2c marketplace development	single-vendor "store" terms

b2c aur d2c sabse zyada confuse hote hain — d2c ko "brand-owned, no middleman" angle do, b2c ko "retailer to consumer" angle. Cross-link dono.

Platform Website / store

Page	Primary keyword	Secondary keywords	Avoid
shopify-ecommerce-development	shopify ecommerce development company	shopify website development company · shopify store development · shopify development services · hire shopify developers	generic "ecommerce development"
woocommerce-website-development	woocommerce development company	woocommerce website development services · woocommerce developer · woocommerce store development · hire woocommerce developers	"shopify", generic terms

Industry verticals mostly Website gift & beauty: App

Har vertical ka product-modifier unique hai (jewellery/furniture/...), isliye ye aapas mein ya pillars se collide nahi karti. "Lean" = content focus.

Page	Primary keyword	Secondary keywords	Lean
jewellery-ecommerce-development	jewellery ecommerce development company	online jewellery store development · jewellery ecommerce website development · jewelry ecommerce app development · jewellery website developer	Website
furniture-ecommerce-development	furniture ecommerce development company	online furniture store development · furniture ecommerce website development · furniture store app development	Website
fashion-ecommerce-development	fashion ecommerce development company	clothing ecommerce website development · fashion ecommerce app development · online fashion store development · apparel ecommerce development	Website
gift-ecommerce-development	gift delivery app development company	FNPN clone app development · online gift store app development · gift ecommerce app development · build an app like FNP	App

Page	Primary keyword	Secondary keywords	Lean
beauty-cosmetic-store -app-development	cosmetic store app development company	beauty ecommerce app development · cosmetics online store development · cosmetic shopping app development · beauty store app development	App

gift & beauty ko "App" lean isliye diya kyunki unka real demand app/clone queries pe hai (gift = "FNP like app", beauty URL mein hi "app" hai). Ye app-pillar se link honi chahiye; baaki verticals website-pillar se.

AI services **AI**

Page	Primary keyword	Secondary keywords	Avoid
ai-in-ecommerce	AI in ecommerce solutions	AI solutions for ecommerce · ecommerce AI development · generative AI for ecommerce · AI ecommerce software	"development company" (dev pillar)
ai-in-retail	AI in retail solutions	AI solutions for retail · AI retail software · AI for retail business · retail AI development	"ecommerce" head terms

ai-in-retail ko 1,218 impressions mil rahe (pos 70) — content/intent strengthen karo, ye sabse bada quick-win hai.

Location pages **Local**

Page	Primary keyword	Secondary keywords	Note
ecommerce-development -company-in-jaipur	ecommerce development company in jaipur	ecommerce website development company in jaipur · ecommerce app development jaipur · ecommerce development services jaipur	strongest local page
ecommerce-development -company-in-delhi	ecommerce development company in delhi	ecommerce website development delhi · ecommerce app development company in delhi · ecommerce development services delhi	fix 65-char meta desc
ecommerce-development -company-in-alwar	ecommerce development company in alwar	ecommerce website development alwar · website development company in alwar · ecommerce development alwar	add to sitemap

Geo-modifier (jaipur/delhi/alwar) se ye non-local pages ko cannibalize nahi karti. Teeno ko ecommerce pillar se link karo.

Keywords GSC ke real query data (last 3 months) + intent analysis se derive kiye. Primary = us page ka #1 target; Secondary = supporting terms jo headings / content mein use ho. Prepared for imgglobalinfotech.com.
